 QUESTION 11:  
 Please indicate whether you agree or disagree with the following statement:

The Pennsylvania government should focus on working with, and not against, the state's energy providers to lower energy costs and protect the environment.

 QUESTION 13:  
 Below is a list of different types of energy production. For each, please indicate whether you believe the state of Pennsylvania should enact policies to expand the production of that type of energy, scale back production of that type of energy, or keep production of that type of energy at the current levels.

 QUESTION 14:  
 Below is a list of different types of energy production. For each, please indicate whether you believe the state of Pennsylvania should enact policies to expand the production of that type of energy, scale back production of that type of energy, or keep production of that type of energy at the current levels.

 QUESTION 15:  
 Below is a list of different types of energy production. For each, please indicate whether you believe the state of Pennsylvania should enact policies to expand the production of that type of energy, scale back production of that type of energy, or keep production of that type of energy at the current levels.

 QUESTION 17:  
 Below is a list of different types of energy production. For each, please indicate whether you believe the state of Pennsylvania should enact policies to expand the production of that type of energy, scale back production of that type of energy, or keep production of that type of energy at the current levels.

 QUESTION 20:  
 Below is a list of different types of energy production. For each, please indicate whether you believe the state of Pennsylvania should enact policies to expand the production of that type of energy, scale back production of that type of energy, or keep production of that type of energy at the current levels.

Table 25-4  
 QUESTION 21:  
 Below is a list of different types of energy production. For each, please indicate whether you believe the state of Pennsylvania should enact policies to expand the production of that type of energy, scale back production of that type of energy, or keep production of that type of energy at the current levels.

Hydroelectric

Table 28-1  
 QUESTION 24:  
 Now, as you may be aware, some elected officials have proposed using different tools to influence energy production, such as government regulations, special tax breaks, and taxpayer-funded subsidies. Do you support or oppose each of the following.

Government regulations on energy producers that will restrict the types of energy they can produce.

Table 29-1  
 QUESTION 25:  
 Now, as you may be aware, some elected officials have proposed using different tools to influence energy production, such as government regulations, special tax breaks, and taxpayer-funded subsidies. Do you support or oppose each of the following.

Tax breaks that promote the purchase of electric vehicles.

Table 31-2  
 QUESTION 27:  
 Now, as you may be aware, some elected officials have proposed using different tools to influence energy production, such as government regulations, special tax breaks, and taxpayer-funded subsidies. Do you support or oppose each of the following.

Taxpayer-funded subsidies to create hydrogen hubs in Pennsylvania as a clean energy initiative.

 QUESTION 28:  
 Which of the following statements comes closer to your personal views?

Pennsylvania policymakers should focus on cutting red tape to allow for the development of the state's vast natural energy reserves, such as natural gas and oil, to reduce costs to consumers.

...or...

Pennsylvania policymakers should subsidize renewable energy, such as solar and wind, to prioritize protecting the environment.

Table 32-3  
 QUESTION 28:  
 Which of the following statements comes closer to your personal views?

Pennsylvania policymakers should focus on cutting red tape to allow for the development of the state's vast natural energy reserves, such as natural gas and oil, to reduce costs to consumers.

...or...

Pennsylvania policymakers should subsidize renewable energy, such as solar and wind, to prioritize protecting the environment.

Table 35-1  
 QUESTION 31:  
 Which of the following statements comes closest to your own opinion when thinking about government regulation and oversight of Pennsylvania energy producers?

There is too much bureaucracy and red tape hindering energy production in the state and driving up costs for consumers.

...or...

There are not enough government regulations to penalize energy companies for their carbon emissions or to limit their energy production.

Table 36-3

QUESTION 32:  
 Several states and cities across the country are passing or considering legislation that bans or limits natural gas appliances, such as stoves and furnaces, and gasoline-powered equipment such as leaf blowers.

Would you support or oppose similar legislation in Pennsylvania?

 QUESTION 36:  
 Electric vehicle owners do not pay gasoline taxes that are used to maintain our roads and bridges. Because electric car owners use our transportation infrastructure, some people have suggested electric vehicle owners should be taxed to make up for the lost gas tax revenue.

Do you support or oppose imposing a tax on electric vehicle owners to compensate for lost gas tax revenues used to maintain our roads?

Table 41-1  
 QUESTION 37:  
 During his campaign, Governor Shapiro promised to work with Democrats and Republicans in the state legislature to reconsider the state's participation in the Regional Greenhouse Gas Initiative, which would increase energy prices for Pennsylvanians. The Commonwealth Court deemed RGGI unconstitutional, labeling it an illegal tax, and subsequently blocked the initiative. The governor has decided to appeal the court ruling.

Do you support or oppose RGGI, a program that would impose a new energy tax?

Table 47-1  
 QUESTION 41:  
 Environmental, Social, and Corporate Governance is a way of evaluating businesses beyond the value they create for investors and customers, such as their ability to promote long-term environmental sustainability and social responsibility as defined by social and political activists, not businesses or investors.

Knowing that, which of the following statements comes closest to your own opinion about state-managed investments?

State pension funds and 401ks should be invested to achieve the best returns for current and future retirees.

...OR...

State pension funds and 401ks should be invested only in companies adhering to socially conscious ESG standards.

 QUESTION 44:  
 Which of the following statements comes closest to your personal views?

We should promote domestic energy production to ensure our nation has a reliable energy supply, protect our national security interests, and provide American consumers with available and affordable energy.

...or...

We should reduce domestic energy production. The government has an obligation to protect our national resources and fight climate change.

QUESTION 47:

Which of the following statements comes closest to your own opinion about energy and environmental regulations?

Government energy regulations and oversight help protect the environment and bolster consumer safety.

...or...

Excessive government red tape prevents energy production, drives up costs for consumers, and has little environmental or safety benefits.

 QUESTION 48:  
 President Joe Biden recently announced he is pausing the approval of new liquefied natural gas exports. Pennsylvania is the second largest natural gas-producing state. U.S. Senators Bob Casey and John Fetterman have expressed concerns about the impact the president's decision could have on Pennsylvania jobs.

Based on what you know, do you support or oppose President Biden's decision?

 QUESTION 48:  
 President Joe Biden recently announced he is pausing the approval of new liquefied natural gas exports. Pennsylvania is the second largest natural gas-producing state. U.S. Senators Bob Casey and John Fetterman have expressed concerns about the impact the president's decision could have on Pennsylvania jobs.

Based on what you know, do you support or oppose President Biden's decision?

Table 55-1  
 QUESTION 49:  
 Please read the following two statements regarding the president's decision to pause the approval of applications to export Liquefied Natural Gas and indicate which one comes closest to your view.  
 It's time to update our export review framework to give greater weight to the effects of Liquefied Natural Gas on climate change. This pause on new Liquefied Natural Gas approvals sees the climate crisis for what it is: the existential threat of our time.

...or...

Liquefied Natural Gas exports support Pennsylvania jobs and help grow the economy. If America blocks new exports, adversarial countries like Iran and Russia will fill the void. Friendly countries that now buy from us may have no choice but to turn to Iran and Russia, enriching those countries.

Table 55-4  
 QUESTION 49:  
 Please read the following two statements regarding the president's decision to pause the approval of applications to export Liquefied Natural Gas and indicate which one comes closest to your view.  
 It's time to update our export review framework to give greater weight to the effects of Liquefied Natural Gas on climate change. This pause on new Liquefied Natural Gas approvals sees the climate crisis for what it is: the existential threat of our time.

...or...

Liquefied Natural Gas exports support Pennsylvania jobs and help grow the economy. If America blocks new exports, adversarial countries like Iran and Russia will fill the void. Friendly countries that now buy from us may have no choice but to turn to Iran and Russia, enriching those countries.
